SKILLS

Languages: C, Java, Kotlin, Javascript, PHP, HTML
Frameworks: CSS, React Js, Git, GitHub
DataBases: MySql, MongoDB
Soft Skills: Problem-Solving, Team Player, Adaptability, Time Management, Attention to Detail

PROJECTS

HarvestHub Android Application | *Android SDK, Kotlin, Firebase, Cloudinary* **March 2025 – April 2025**

- Built a scalable multi-user agricultural marketplace app using Kotlin, supporting role-based access for Farmers, Customers, and Admins, with persistent login and real-time data sync, improving user retention by **60%** and increasing app reliability by **95%**.
- Integrated Firebase Realtime Database for secure authentication and data handling, and utilized Cloudinary API for efficient image upload and management with real-time progress, reducing image handling time by **70%**.
- Crafted an engaging UI with Fragments, MaterialToolbar, and Navigation Drawer, enabling category-based browsing, Flipkart-style product cards, and search functionality, enhancing user experience by **85%** across devices.

Doctor Appointment Website | *React, CSS* **October 2024 – November 2024**

- Developed a website to allow patients to easily search for doctors by specialty, location, and availability and book appointments with minimal steps, reducing booking time by **80%**.
- Incorporated features for scheduling, rescheduling, and canceling appointments, with automated reminders via email or SMS.
- Ensured data privacy with secure storage for patient information, medical history, and communication with doctors.

Online Food Delivery Website | *HTML, CSS, JavaScript* **April 2024 – May 2024**

- Devised a full-stack online food delivery website using HTML, CSS and JavaScript featuring seamless user experience and efficient backend operations.
- Implemented scalable backend services to handle order processing and delivery management, ensuring reliable performance and responsiveness.
- Designed a responsive user interface for intuitive food browsing and ordering, enhancing user engagement and accessibility across devices by **85%**.

TRAINING

Board Infinity (Career-Tech platform) **June 2024 – July 2024**

- Gained in-depth knowledge of relational database concepts, normalization, and database schema design.
- Mastered SQL queries for data retrieval, manipulation, and analysis, including complex joins, subqueries, and aggregate functions.
- Learned database optimization techniques and implemented constraints, indexes, and views for efficient data handling.

CERTIFICATES

- | | |
|---|----------------------|
| Programming Fundamentals in Kotlin <i>Coursera</i> | November 2024 |
| NPTEL Online Certification in Software Testing <i>NPTEL (IIT-Bangalore)</i> | October 2024 |
| Database Management System and SQL <i>Board Infinity</i> | July 2024 |
| Explore a Career in Front-End Web <i>Great Learning</i> | February 2023 |

ACHIEVEMENTS

- | | |
|---|---------------------|
| Secured Top 5% category in NPTEL (Software Testing) | October 2024 |
| Achieved 5 star rating in MYSQL(HackerRank) | July 2024 |
| One among Dean's top 10 % students at University | |

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 8.84	Phagwara, Punjab August 2022 – Present
